Iran, which I have seen!

The Tehran capital of I. R. of Iran is a populous and is emerging very fast as an important city in recent years.

The significance of the name of Iran is just due to the courage of people & its geo-political position and the role of Persian language. One can witness this reality that in-spite of many upheavals & imposed sanctions by opponents, which caused difficulties, the spirit of Iranians and the standards seems to be more vibrant & radiant then before.
