

Al hamdulillah, I have participated in the 20th International Festival of Visual Arts for Young Artists, organized by Iran Govt. at Golestan Province, Iran w.e.f 23-27 August 2013.

It was a very good experience for me, where I could learn more about calligraphy art and miniature paintings 'colors' etc.

I found all the people -the artists, the organizers and even the public to be very nice and always helpful.

The festival was very interesting and I'm thankful again to the organizers.
